

# Vic Williams

Your Arizona House of Representative LD26  
Candidate

*As your candidate, I firmly believe that Republicans need to once again act like Republicans.*

*As a citizen of Southern Arizona, a father, and a businessman, I'm disappointed by our party's mismanagement at local, state, and federal levels. I will work toward a policy of fiscal responsibility, not a habitual practice of "borrow and spend" politics.*

*I will work toward a smaller, smarter government that realizes its own limitations. I expect a fundamental change in our behavior. How can we protect people from large government if Republicans are unwilling to act like Republicans?*

*As your conservative choice, four issues define my plan for Arizona:*

- 1. We must balance our state budget by reducing spending and keeping taxes low.*
- 2. We must dramatically improve the quality and accountability of education we provide for Arizona's children.*
- 3. We must continue to lead the nation in implementing and enforcing illegal immigration laws.*
- 4. We must create a business plan for Arizona that realizes the state's near limitless potential.*

*As your Republican, I'm ready to carry this message forward. I'm ready to act like a Republican. This is why I'm running for the State Legislature.*
